

Chaplains For Life Ministerial Outreach

CHAPLAINS FOR LIFE -- Ministers in the Workplace Training Program Highlights

Why become a Chaplain? Chaplaincy training gives you a foundation for successful ministry in the market-place. With the God's present-day emphasis on expanding ministry beyond the four walls of the local church, every Christian should be equipped with the tools needed to minister the life of God where it is most needed - in the world environment in which we function on a daily basis. Completing this program will ground you in the basics of chaplaincy ministry and motivate you to specialize in the sphere of ministry in which you "fit".

Course description: The intent of this course is designed to equip saints of the Most High to become ministers in the marketplace by equipping them with both spiritual and natural tools to deal with life issues that arise in the workplace and in the community.

Course Length – 24 Hours

Course Credentials – Chaplaincy Certification / Ordination (with 2 letters of recommendations)

Course Trainers - Bishop REJoyce, Prophet Ron Wright, Minister Anetria Wright
